

Critical Thinking Evaluation Tool For Self-Study Programs

Process

These questions must be completed by all CDR credentialed practitioners upon completion of a self-study CPE product and returned to the provider prior to receiving a certificate of completion. A copy of this form should also be kept by the CDR credentialed practitioner. CDR credentialed practitioners must have the form and the certificate in their files should they ever be audited. Failure to include both certificate and completed tool will result in a failed audit and loss of the CPE credit.

Carefully reflect upon the learning that has occurred as a result of the completion of the self study and answer the following questions that will be used to assess elements of essential critical thinking. Responses should be written in complete sentences and where appropriate refer to the relevant section of the self-study material.

If you are not currently practicing, please reflect on your past or future practice.

Name:

Name of Self-Study Completed:

1. Did you find the education valuable?

Yes

No

If yes, what aspects of the education was valuable?

If no, why not?

2. Did you or will you change your practice(s) based on what you learned in the program?

Yes No

If yes, what change do you intend to make?

If no, why not?

3. What barriers or limitations do you anticipate when trying to implement this new information into your practice?

4a. What are the strengths and limitations of the information presented?

4b. What are the identified gaps in the information provided? (Ex. outcomes that apply to a specific patient/client population; limited data in gender, age, other races, etc.)
